

Daniel-Nicolae Ispas

FRONTEND DEVELOPER

Profile

I'm a Front End Developer who's aiming to become a Full-Stack Developer. I have worked on many projects. I use effective technologies and standards which usually results in a quality product :).

Enthusiastic and self-taught, willing to learn and develop in the best possible way in new technologies, assuming challenges that allow me to develop professionally, always responsible and committed to my duty.

Along the way I have worked with multiple technologies and programming languages but currently all my focus is on ReactJS and .NET.
